DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael B. Atlass on March 31 2004.

The application has been amended as follows: The examiner amendment overcomes the 101 rejection of claim 21, presented as new claim 22.

Claim 21 has been canceled.

New claim 22 has been added:

Claim 22 (New):

--A system comprising software code executing within at least one computer system memory, said software code configured for qualifying radar data product employing qualified coverage obtained in digital form from a coverage map produced with the method of claim 1, together with blockage, and/or clutter data maps, obtained in digital form from data sources and for modifying raw radar data product using said software code executing within said at least one said computer system memory so that a process modifies said raw radar data product in accord with information from said maps.--

Allowable Subject Matter

Claims 1-20 and 22 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: With respect to claims 1 and 19, the prior art fails to teach or render obvious the steps of parsing said dataset into bins for each radial of said radar product; identifying the highest elevation terrain data point from each said bin; calculating the coverage or clutter value for each said bin; producing a data set of bin values for said coverage area. The prior art teaches radar maps including terrain elevation. However, none of the prior art either singularly or in combination teaches the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Isam A Alsomiri whose telephone number is 703-305-5702. The examiner can normally be reached on Monday-Thursday and every other Friday (8:30-5:00).
